## HOW MUCH SHOULD I GIVE?

That is something we can't tell you! Some commentators say that the Bible requires us to give 10% of our income, but there are others who say that this is an incorrect reading of Scripture and merely emphasise that we should give willingly and generously. It is certainly true that many of the responsibilities that the Church used to have for caring for the poor and sick are now financed from our taxes. In the Church of England it has been said that if every member gave 5% of their disposable income after taxes, all the Church's financial difficulties would be solved. But whatever percentage you choose to give, the important thing is that it is done with prayer and with joy.
